# D) Employment Information/Job Creation

The Agency recommends the following standard when reporting FTE – Full Time Equivalent jobs: Full-time equivalent is a ratio that compares the number of hours worked during a pay period by an employee to the number of work hours during the pay period that equates to full time employment. For example, an employee who works hours equal to full time is 1.0 FTE. An employee who works half the hours of full time employment is 0.5 FTE, while an employee that works one-third the hours of full time employment would be considered .3 FTE. Please contact the Agency for assistance if needed.
