In ‘Column B’ enter the estimated value of the PILOT payments for each year through the duration of the PILOT term. In ‘Column C’ enter the property taxes that the Project would otherwise pay, but-for the PILOT abatement, on the full assessed value. Column B: The estimated PILOT amounts for each year.

Column C: The hypothetical value of property tax payments as if the Project moves forward and the property is fully taxable.

E) Employment Information/Job Creation

*The Agency uses the following standard when reporting **FTE – Full Time Equivalent** jobs: Full-time equivalent is a ratio that compares the number of hours worked during a pay period by an employee to the number of work hours during the pay period that equates to full time employment. For example, an employee who works hours equal to full time is 1.0 FTE. An employee who works half the hours of full-time employment is 0.5 FTE, while an employee that works one-third the hours of full-time employment would be considered .3 FTE. Please contact the Agency for assistance if needed.*

Please estimate the number of jobs (both retained and created) associated with the operations of the Project subject to this application:

Previous Year	Current Year	Year 1	Year 2	Year 3
0	0	0.5	0.5	0.5

For year 3, total number of jobs retained: FTE 0.5

For year 3, total number of jobs created: FTE 0.5

For the jobs that will be created and retained as a result of this project, please provide more information below.

The tables below capture the number of jobs created and retained in the first three years of operations as the Project reaches employment stability. Do not include construction phase employment below. Also note, the following tables should be **cumulative**. In other words, jobs that are created in Year 1 and expected to be retained through Year 3, should be included in each of the three tables below. Therefore, in most cases, job counts in Year 3 should be greater than, or equal to, jobs in Year 1.

In the 'Description' tab please enter the job title for each position. In the 'NAICS Code' column enter the NAICS code associated with each position. If NAICS Code is unknown, please use the keyword search function in the following link to find the most appropriate code: <https://www.census.gov/naics/>. Enter the **cumulative** job count and the average salary for each position in the 'Count' and 'Average Salary' columns respectively. Attached additional sheets as needed.
